## Product Features:

■ Reliable, solid-state, two-output LED flasher

■ 25 flash patterns in total

■ Insulating paint electronics

■ Waterproof: IP65

■ Excellent for applications requiring exterior mounting

■ Standard 12V DC, DC 24V for optional choice

■ It can control LED modules without the program

■ Use terminals instead of wires to simplify wiring connections

■ There are two outputs with heavy-duty Amperage(less than 8A)

SPECIFICATIONS

Item	Output	Amps per Output	Total Amps
Flasher	2	8A Max Each	16A Max

Notice

If you want to change pattern, connect the wire to power wire for flash patterns change. Holding 2-3 seconds for the default pattern(first pattern) and 3-4 seconds for 50% power mode .

Output Current
output1----------------8 Amps Max
output2----------------8 Amps Max
output3----------------8 Amps Max
output4----------------8 Amps Max
NOTE: Total current of outputs 1-4 not to exceed 16 Amps
